September 2015

Important dates:

Sept. 18 – day care only

Sept.24 , Oct. 1,8,15 - Open Classes

## *Learning, playing And growing in Omei Academy.*

Even Principal Zou joins the soccer game in recess

“The students in my Math class were divided into 2 groups: grade 2-3 and grade 4+”, explains teacher Liu. “The older students will take my class at 4:00pm while younger kids are attending their Chinese class, then younger kids will take my class at 5:00 after their Chinese class is over. After finishing the Singapore Math workbook in the first half of the class, I provide them group works to enhance their team work and logic skills, or math games to learn or review during the game process.”

A demonstration from our science teacher Mr. Gu. Students were so excited to build their own cars!

Kindergarten and first grade students are busy decorating their classroom while at the same time working on their fine motor skills. They enjoy listening to the stories teacher Zhang is reading to them in Chinese. Repeating words from stories aloud is part of the learning process, making the students feel more confident in engaging in a conversation in the new language. Math problems can be sometimes challenging for the young students, but they help each other working in small groups under teacher Zhang's instructions.

Second graders enjoy many activities in Omei Academy. Every day they have Chinese and Math classes and have fun playing wall ball and tag in the recess time. Boman smiling tells us he likes Math the most, while Max says he loves table tennis. In Chinese class students learn how to write words and put them together in short paragraphs. Of course teacher Yan helps them to do their best. Kids like her, because they think she is nice and makes things look easier so that everyone can follow. In these few weeks they all made a lot of friendships. Teachers see often Ethan, Boman and Alan playing together and they hope for many wonderful weeks coming ahead.

峨嵋的学生：纯真可爱，思维敏捷，想象力丰富，人人都有一双灵巧的小手，做什么像什么。学习认真，乐于助人，忠厚诚实，成绩良好。快乐健康，踏实有爱心，善良稳重有创造性。有礼貌，待人诚恳有同情心。
